Pour chaque classe d'affaires, à l'exception des classes « incendie et automobile », les valeurs dans la colonne « primes acquises (nettes) » ont été calculées en utilisant le rapport des primes acquises au Canada sur les primes écrites, pour ensuite être appliquées aux primes écrites au Québec. Pour les classes « incendie et automobile », les primes acquises (nettes) sont tirées directement de l'état annuel des compagnies.

For each class, excluding "fire and automobile", values in column "net premiums earned" have been calculated by using the ratio of net premiums earned in Canada to net premiums written, and thereafter by multiplying it by written premiums in Quebec. For classes "fire and automobile", net premiums earned are taken directly from the annual statement of each company.

TABLE IV — INCENDIE — FIRE
